

HOW TO HAVE YOUR BEST GARDEN YET

Setting Your Garden Goals

GARDEN GIRLS

Let Yourself Grow

Garden Girls

Who we are & Our Mission

We are the Garden Girls. We are Moms, entrepreneurs, and self-taught gardeners. We have helped hundreds of clients set up gardens that are productive, stylish, and reflective of their lifestyle.

We started gardening for different reasons, but we begin and end our day in our own gardens because of the beauty, grace, and connection that gardening provides. A garden not only transforms a space, it transforms the individual. We want to inspire you to DIG IN.

Timing is an important factor in having a productive garden. And, NOW, is the perfect time to set your gardening intentions for the new year. This guide will help you reflect and set goals for 2024!

Garden Goals

Reflection

What is your WHY for gardening? List your top two. Ideas are aesthetics, production, herbs, cut flowers, mental health.

1)

2)

What brought you the most joy in you garden this past year?

What was your greatest garden challenge?

Did you have a 2023 garden goal you were not able to achieve?

Garden Goals

Looking forward

What are you most excited about in the coming year for your garden?

Your top 3 garden goals for 2024:

1)

2)

3)

Do you want to add any elements to your garden? Ideas are trellis, pollinators, fountain, seating, bird bath.

Garden Goals
